Dee and Elyana,

I think the U&O FIP is ready for Elliott and Lorie to review. Should I add Lorrie to the Sharepoint and send an invite for both of them to review via Sharepoint? Alternatively, it's not the preferred option, but I could send an email with it attached. Please advise.

Thanks,

Claudia

Hi Claudia,

Thanks for all of your work on this on Friday! I updated Greg this morning, please see below. I also spoke to Elyana to let her know where we were and that Elliott was planning on reviewing the FIP. She believes Mike Boydston is back in today, so he should be around if we need to reach out to him.

Take care,

Dee

Good Morning Dee – I hope you had a great weekend.

I had a short email exchange with Elliott Zenick this morning regarding the U&O FIP and he made it clear he does plan on spending sometime reviewing it because of its interactions with our three rules. We have been playing phone tag this morning. I will let you know if I hear more from him.

Good morning Greg,

As we chatted about, I wanted to provide you with an update on the status of the U&O FIP. We did receive comments from Rick on Friday. Claudia was able to address most of them, however, there are a few that need further discussion. Let me know if you have any questions.

Thanks,

Dee

Hi, Rick,

I accepted most of your suggested edits so far, with some exceptions that I still want to discuss with the team here before making revisions. You can view the latest, along with responses to some of your comments, in the attached version (also on the Sharepoint). We will get with you, Eliot, and Lorie early next week.

Thanks,

Claudia

Claudia,

Ex. 5 - Attorney Client

Ex. 5 - Attorney Client

As I indicated yesterday, I don't personally have the authority to concur in the package on behalf of OGC, but am copying Elliott Zenick and Lorie Schmidt on this email and recommending to them that OGC do so. Hopefully, this will be sufficient to allow the package to move forward to Janet McCabe for her review.

Great job.

Rick

Thanks, Claudia. I can open it in Word Online, but when I try to open it in Word to edit it, I get a message saying that it is unable to connect at this time. I had this problem with another SharePoint site (the oil and gas FIP for new sources) the other day when I was working from home. I then got it to work once I got to the office, but it eventually messed up again and I ended up not only losing ½ day's work, but also having to spend another ½ day straightening it out. I will appreciate it you will download the document from SharePoint and send it to me as an attachment to an email so that I can open it in Word. I won't be able to automatically update the document on SharePoint, but at least I shouldn't lose anything and I don't expect to have many, if any, comments at this point. Thanks.

All,

Kim was unfortunately editing an older version than the one we recently sent to OAQPS. I was going to incorporate her comments into the version that was sent to

OAQPS, which should be the version that is currently on the Sharepoint. I have not had a chance to do that yet.

Thanks,

Claudia

Subject: RE: U&O FIP

Looking further, this appears to be the version SENT TO QAQPS, but does not incorporate edits agreed upon among Claudia, Gerri Garwood, and me on the phone last week concerning the footnote 80 language and other edits/corrections I caught and marked up (e.g., pneumatic controllers constructed after 10/15/13 instead of the 8/23/11 date R8 had originally in the table around page 55 or 57). These were all in the version that R8 and OAQPS discussed last week, and that was supposed to be the one that went to DC.

Subject: RE: U&O FIP

Importance: High

I agree that this version is NOT the latest version that OAQPS and R8 agreed upon last week. I just checked a couple of things , primarily the footnote about combustor performance, and it is NOT the agreed upon language.

Thanks Mike –

My comments on this version are attached. Since it has been transmitted to HQ, maybe those of you in OGC can take a look at this version and incorporate as you see fit.

Kim, I looked at some of the underlying documents and have some questions for you on p. 24.

Thanks, Kimi

Hi all – Here's the version of the FIP transmitted to OAQPS. I expect that they may be reaching out to you in OGC next. Kim, I ran out of time to make any change on the sentences in the vicinity of footnote 6, but I think we can make further small edits like that still either as OGC reviews it or by reaching out to OAQPS directly. I'll try to give that a closer look tomorrow. Thanks all for the help so far -
